**PREAMBLE**

*The Slovak Football Association was established in 1938 in extraordinary international and national conditions exactly 40 years after the first football match in the territory of Slovakia in 1898.*

*Despite the difficult circumstances that surrounded the emergence of the national football association during the war and the regime that ruled Slovakia until 1989, the Slovak football was an incessant source of joy and pleasure to all who practiced it both passively and actively irrespective of their gender, race, color, language, religion, political or other beliefs, national or social origin, nationality or ethnicity, wealth, lineage or other status, as well as irrespective of the political units and regimes at power in the present territory of the Slovak Republic.*

*The modern Slovak Football Association was established as a civic association under the Law on Association of Citizens from 1990 and it proudly presents itself as a continuation of the football history and successes in its territory from the times of Austria-Hungary, through the first Czechoslovak Republic, the Slovak State, the Renewed Czechoslovak Republic, Czechoslovak Socialist Republic and Czechoslovak Federal Republic, until the establishment of the Slovak Republic in 1993, with special emphasis on the silver medal of the Czechoslovak National Team at the World Championship in Italy in 1934 and the World Championship in Chile in 1962, the triumphant victory of Slovan Bratislava in the UEFA Cup in 1969, the gold medals of the Czechoslovak representation from the European Championship in Belgrade in 1976, bronze medals from Marseille in 1960 and Rome in 1980, the Olympic silver from Tokyo in 1964 and the Olympic gold from Moscow in 1980.*

*It also proudly connects to its own past as a National Football Association - the message and activities of the Czechoslovak Football Association, whose successor it is - it views itself as a direct continuation*

and follows up on this history through its other achievements, the greatest of which is the first participation of the Slovak national team at the World Championship in South Africa in 2010 and in the final tournament of the European Championship in France in 2016.

Looking into the future, the Slovak Football Association will further support the development of football in the territory of the Slovak Republic in accordance with the principles of fair play and social responsibility, and protect and promote the interests of its members in achieving this highest goal not only on the national but also international level in the conditions of membership of the Slovak Republic in the European Union and membership of the Slovak Football Association in the international federation FIFA and the UEFA confederation. Football is an instrument for the global development of man and a useful tool for building human society. The sheer respect for the rules of the game based on the principle of fair play, which is reflected in all the activities of the units and bodies of the football movement, helps to build a healthy civic society.

Owing to the above and with this vision, the Conference as the highest authority of the Slovak Football Association hereby passes the following Statutes:
